UX/UI Designer & Product Designer

SUMMARY

UX/UI and **Product Designer** with hands-on experience designing user-centered digital products across **web and mobile** (iOS and Android), spanning a multidisciplinary tech-company team and a public-sector design internship. Skilled in **user research**, journey mapping, and high-fidelity prototyping in **Figma**, with a strong focus on **accessibility** and usability. Collaborates daily with engineers in agile, cross-functional teams, including native iOS product work at the **Apple Developer Academy**. Currently completing a second degree in Experience Design.

- Designs user-centered digital products across **web and mobile (iOS and Android)**, as **UX/UI Designer & Product Designer** at the **Apple Developer Academy**.
- Conducts **user research**, journey mapping, and usability validation as **UX/UI Design Intern** at **Procergs**, designing for public-sector web systems.
- Collaborates daily with engineers in cross-functional, agile teams, aligning design intent with technical feasibility.
- Co-designed "Lumina," a team project that won the **Campus Mobile** competition, earning a trip to the United States.
- Recognized as a **Winner in Apple's Swift Student Challenge 2026**.
- Skilled across **Figma, Illustrator, InDesign, Photoshop, and Canva**, with a UX process spanning research, wireframing, and accessibility-first prototyping.

DESIGN & TECHNICAL SKILLS

Design Tools: Figma (Advanced), Canva (Advanced), Adobe Illustrator (Intermediate), Adobe InDesign (Intermediate), Adobe Photoshop (Basic)

UX Process: User research, journey mapping, wireframing, prototyping (low to high fidelity), usability validation, UX writing

Product & Collaboration: Product design across web, iOS, and Android, cross-functional collaboration with engineers, agile teams, accessibility-first design, *(interest in Swift/SwiftUI, from close collaboration with iOS developers)*

PROFESSIONAL EXPERIENCE

UX/UI Designer & Product Designer, Apple Developer Academy *(02/2025 to 11/2026)*

- Designs user-centered digital products across web and mobile, applying UX/UI principles to create intuitive, accessible interfaces within the Apple ecosystem.
- Conducts user research, journey mapping, and usability validation to inform interface and product decisions.
- Builds prototypes in Figma, iterating from low to high fidelity based on research insights and feedback.
- Collaborates daily with iOS developers, designers, and product stakeholders in agile teams.
- Co-created "Lumina" with two developers, winning the Campus Mobile competition.

UX/UI Design Intern, Procergs *(06/2025 to present)*

- Designs digital experiences for public-sector systems: web platforms and internal programs for the state of Rio Grande do Sul.
- Works the full process end to end: research, journey mapping, prototyping, and interface validation.
- Prioritizes accessibility, clarity, and social impact given the civic nature of the systems.

COMPETITIONS & AWARDS

- **Winner,** PUCRS Entrepreneur Tournament (Torneio Empreendedor PUCRS).
- **Winner,** Swift Student Challenge 2026, Apple.
- **Winner,** Campus Mobile, "Lumina" project (team of three: Giovana as UX/UI designer, plus two developers). Prize included a trip to the United States.
